EXPERIENCE

Web Designer   Hakkoda
2023 - Now

As a Web Designer at Hakkoda, I played an integral role in enhancing the company's online presence through innovative website design, presentations, and reports, focusing on user-friendliness and customer engagement. I managed the entire design process from concept to engineering hand-off, creating wireframes, user flows, and interactive designs using tools like Figma, WordPress and HubSpot.

Front-end | Designer   Pier
2021 - 2023

I joined a fast-moving team of content experts, ITs and project managers to develop user experiences for acquisition channels. My role involved collaboration with cross-functional teams and external partners. I helped align quarterly OKRs by creating landing pages (using React and Dato), email templates and various ad creatives.

Full-Stack Web Developer   Freelance
2020 - 2024

Web page development from design to production deployment using the main technologies: Ruby on rails, NodeJS, HTML5, CSS3, JavaScript, React.js, Bootstrap. Working together with the client to meet their expectations and find the best possible solution for each project. Greeting visitors, monitoring the spaces, helping

Designer & Operations Assistant   SNBA
2019 - 2020

Greeting visitors, monitoring the spaces, helping with the physical installation of exhibits and developing graphic materials.
